About Our Peonies

The great development of the Peony industry and the increasing demand for roots and flowers should induce every gardener, florist and nurseryman to make a planting of the standard varieties, and, as his interest increases, plant a few of the better new varieties. With a small outlay your planting will increase in value year after year.

In addition to offering some of the best productions of Lemoine, Dessert, Crousse, Kelway and other foreign hybridizers, we take pleasure in offering you many valuable varieties introduced by American growers.

With no intention of slighting other American producers who have done noble work with the Peony, we consider Brand as the greatest American producer of valuable new varieties. We have been planting all of the Brand varieties as soon as available, some of which we are offering in this list.

In this list we are giving the name of the introducer and the date. The figures following the name of the variety refer to the rating as given by the American Peony Society. We have discontinued the propagation of all varieties with a rating below 6.0.

Read This Before Ordering

As we dig and plant all our Peonies in the Fall, we cannot accept orders later than October 15th. Orders for collections should be sent us before October 1st.

PRICES are quoted for single plant—one or a thousand at same rate. We like large orders but do not discriminate against the customer who buys but a few plants.

PACKING is done in the best possible manner. We use only pure sphagnum moss for all nursery stock. It costs us more, but the saving in weight and the insurance against loss and possible damage more than offset the cost.

SIZE OF ROOTS. We send out the same sized roots we use in our own planting. A well balanced root system, carrying from 2 to 5 eyes, depending on growth of variety. Unless instructed to the contrary, we trim all roots, making the plant shapely and saving transportation charges. We send out no "clubby" roots. Of some varieties we can furnish heavier roots and clumps, prices of these subject to correspondence.

GUARANTEE. As liberal as can be made. If stock is not as represented or what you have a right to expect, return it to us at once and the money you have paid us, together with transportation charges, will be refunded to you. Fair, isn't it?

TERMS CASH. Boxing free, which represents a cash discount of about 5 per cent. We will have no loss and you will be taking no risk. Send your order along and we will do our best for you.
